[redacted] DDP Training Officer, has advised us that a sizable number of RID professionals will be entering the I.W.A. three or four times a year (beginning in January) as part of a newly constituted RID internal training program. We can accommodate this group by a slight modification of our schedule for the second half of FY '72, but we have urged RID to avoid large inputs during the periods when CT's will be taking the course.

2. Geography of Communist China

25X1A9a OTHER ACTIVITIES

25X1A9a [REDACTED] Studies Donovan File

25X1A9a [REDACTED] spent two days studying General Donovan's 201 file which had been sent in three days (!) from St. Louis to the Pentagon for his use. The file provides Tom with some useful information on Donovan's pre-World War II trips to Ethiopia, Germany, and Spain, as well as clues to the location of reports he submitted on these trips to the War Department. Also found was a copy of a promotion recommendation in which FDR was quoted as favoring making Donovan a brigadier general rather than major general and holding out the latter as a goal to look forward to in six months.
